

HTE 5

HOT AIR HAND DRYERS

PRODUCT-NO.: 073008

The HTE electronic is a hand dryer which is a real hit, not least because of its extraordinarily quiet operation. An intelligent IR proximity sensor switches the unit ON, when you hold your hands 6 to 12 cm below the air outlet, and OFF again when you remove your hands. The robust casing protects the delicate technical interior against damage. Its design also prevents objects, such as cigarette butts, from being deposited on the casing.
