

FEK2

CONTROL UNIT/ENERGY MANAGEMENT

PRODUCT-NO.: 200168

This digital remote control allows convenient entry, display and control of the cooling and heating operation. For this, the appliance takes account of the relative humidity, monitors the dew point and thereby prevents condensate forming.

The main features

Digital remote control

Convenient entry and display of system parameters

Dew point monitoring

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
