

SOKI SAS

SOLAR COMPACT INSTALLATIONS

PRODUCT-NO.: 231987

The SOKI SAS cylinder connection set enables the pump assemblies: SOKI basic, SOKI 6 plus or SOKI 7 plus to be fitted directly to the cylinder. One part of the cylinder connection set is fitted to the cold side of the cylinder, and the required SOKI is mounted directly onto the set. The second part of the set (incl. thermometer) is fitted to the hot side.

The main features

Integral gravity brake

Thermal insulation as part of the standard delivery

Additional thermometer for the collector flow

Type	SOKI SAS
Part no.	231987

Installation information

Please ask your local power supply utility or a registered electrician to install appliances that are not fully wired, i.e. ready to plug in. The electrician should also be able to assist you with obtaining the agreement of the respective power supply utility required for the appliance installation.
