

SBB 1000 WP SOL

PRODUCT-NO.: 235908

Store hot water on a grand scale

Looking for a hot water supply on a grand scale? No problem! These cylinders are suitable for combination with large heat pumps such as those used in family homes and commercial buildings. If you find that your demand increases, you can easily retrofit an auxiliary heater. Soak up all the sun

These DHW cylinders also use solar heat on a large scale. With a nominal capacity of more than 800 litres, they allow you to store the heat obtained even from larger solar thermal systems with ease. Where demand is greater still, simply link the cylinders in series.

The main features

Large nominal cylinder capacity of more than 800 litres

Even greater efficiency through highly effective WDH SBB thermal insulation as an optional accessory

Increased service life due to corrosion protection as standard

Can optionally be equipped with an auxiliary heater
